## **Independent Auditors' Review Report**

The Board of Directors and Shareholders

China General Plastics Corporation:

### **Introduction**

We have reviewed the accompanying consolidated balance sheets of China General Plastics Corporation and its subsidiaries (collectively referred to as the Group) as of June 30, 2024 and 2023, and the related consolidated statement of comprehensive income for the three months ended June 30, 2024 and 2023 and for the six months ended June 30, 2024 and 2023, and the consolidated statement of changes in equity and statement of cash flows for the six months ended, and the related notes to the consolidated financial statements, including a summary of significant accounting policies (collectively referred to as the “consolidated financial statements”). Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

### **Scope of Review**

Except as explained in the following paragraph, we conducted our reviews in accordance with Standards on Review Engagements of the Republic of China 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Basis for Qualified Conclusion**

As disclosed in Notes 12 and 13 to the consolidated financial statements, the financial statements of some non-significant subsidiaries and investments accounted for using the equity method included in the consolidated financial statements were not reviewed. As of June 30, 2024 and 2023, the combined total assets of these non-significant subsidiaries and investments accounted for using the equity method were NT\$1,099,544 thousand and NT\$1,135,713 thousand, respectively, representing both 6% of the consolidated total assets, and the combined total liabilities of these non-significant subsidiaries as of June 30, 2024 and 2023, were NT\$56,781 thousand and NT\$58,118 thousand, respectively, representing both 1% of the consolidated total liabilities; for the three months ended June 30, 2024 and 2023, and the six months ended June 30, 2024 and 2023, the amounts of combined comprehensive income of these non-significant subsidiaries were NT\$14,735 thousand, NT\$4,378 thousand, NT\$27,110 thousand, and NT\$23,137 thousand, respectively, representing 16%, 50%, 47%, and 9%, respectively, of the consolidated total comprehensive income, and the Group's share of profit (loss) of these investments accounted for using the equity method for the three months ended June 30, 2024 and 2023, and the six months ended June 30, 2024 and 2023, were NT\$3,530 thousand, NT\$(12,739) thousand, NT\$(11,159) thousand, and NT\$(14,697) thousand, respectively, representing 4%, (146%), (19%), and (6%), respectively, of the consolidated total comprehensive income. The additional disclosures of these non-significant subsidiaries and investments accounted for using the equity method were based on financial statements which were not reviewed by auditors.

### **Qualified Conclusion**

Based on our reviews, except for the adjustments, if any, as might have been determined to be necessary had the financial statements of the non-significant subsidiaries and investments accounted for using the equity method as described in the preceding paragraph been reviewed, nothing has come to our attention that caused us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as of June 30, 2024 and 2023, its consolidated financial performance for the three months then ended, and its consolidated financial performance and its consolidated cash flows for the six months then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

## IFRS 18 - “Presentation and Disclosure in Financial Statements”

IFRS 18 will replace IAS 1 “Presentation of Financial Statements”, the major changes in the standard include:

- Income statement should categorize income and expenses items into operating, investing, financing, income tax, and discontinued operations.
- Income statement should report operating profit or loss, profit or loss before financing and income tax, as well as subtotals and totals of these amounts.
- Provide guidance to enhance aggregation and disaggregation requirements: The Group must identify assets, liabilities, equity, income, expenses, and cash flows arising from individual transactions or other events, and classify and aggregate them based on shared characteristics. This ensures that each line item reported in the primary financial statements shares at least one similar characteristic. Items with different characteristics should be disaggregated in the primary financial statements and notes. The Group should label such items as “Other” only when there was no more informative label could be found.
- Increase disclosure of management-defined performance measures: When the Group engages in public announcement outside the financial statements and communicates management's perspective on a specific aspect of the Group's overall financial performance to users of the financial statements, it should disclose relevant information about management-defined performance measures in a single note to the financial statements. This includes a description of the measure, how it is calculated, a reconciliation to the subtotals or totals specified by IFRS, and the effects of related reconciling items on income tax and non-controlling interests.

In addition to the aforementioned impacts, as of the approval date of these consolidated financial statements, the Group is still evaluating the effects of the amendments to the standards and interpretations on its financial position and performance. The related impacts will be disclosed upon the completion of this evaluation.

#### 4. Summary of Significant Accounting Policies

##### (1) Statement of compliance

The interim consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 "Interim Financial Reporting" as endorsed and issued into effect by the FSC. Disclosure information included in these interim consolidated financial statements is less than the disclosure information required in IFRS of annual consolidated financial statements.

##### (2) Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for financial instruments which are measured at fair value and net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

The fair value measurement is classified into three levels based on the observability and importance of related inputs:

- 1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- 2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly (i.e., prices) or indirectly (i.e., derived from prices); and
- 3) Level 3 inputs are unobservable inputs for an asset or liability.

##### (3) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company (i.e., its subsidiaries). When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the Group. All intra-group transactions, balances, income and expenses are eliminated in full upon consolidation. The total comprehensive income of subsidiaries is attributed to the owners of the Company and the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the interests of the Group and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and

the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the Company.

Please refer to Note 12 and Tables 6 and 7 for detailed information on subsidiaries (including the percentages of ownership and main businesses).

(4) Other significant accounting policies

Except for the following, for the accounting policies applied to these interim consolidated financial statements, please refer to the consolidated financial statements for the year ended December 31, 2023.

1) Defined benefit plan

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior fiscal year, adjusted for significant market fluctuations since that time and significant plan amendments, settlements, or other significant one-off events.

2) Taxation

The income tax expense represents the sum of the tax currently payable and deferred tax. Interim period income taxes are assessed on an annual basis and calculated by applying to an interim period's pre-tax income the tax rate that would be applicable to expected total annual earnings.

5. Critical Accounting Judgments and Key Sources of Estimation and Uncertainty

For the critical accounting judgments and key sources of estimation and uncertainty of the consolidated financial statements, please refer to the consolidated financial statements for the year ended December 31, 2023.

The Group's credit period for the sale of goods ranges from 10 days to 60 days. In order to minimize credit risk, the management of the Group has delegated a team responsible for determining credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. Before accepting a new customer, the Group surveys the customers' credit history and measures the potential customer's credit quality to set a credit limit. A customer's credit limit and rating are reviewed annually. In addition, the Group reviews the recoverable amount of trade debt at the end of the reporting period to ensure that adequate allowance of impairment loss is made for possible irrecoverable amounts. In this regard, the management believes the Group's credit risk was significantly reduced.

The Group measures the loss allowance for trade receivables at an amount equal to lifetime ECLs. The expected credit losses on trade receivables are estimated using an allowance matrix by referencing to past default experience with the respective debtors and an analysis of the debtors' current financial positions, adjusted for general economic conditions of the industry and an assessment of economic conditions at the reporting date.

The Group writes off a trade receivable when there is information indicating that the debtor is experiencing severe financial difficulty and there is no realistic prospect of recovery. For trade receivables that have been written off, the Group continues to engage in enforcement activity to attempt to recover the due receivables. Where recoveries are made, they are recognized in profit or loss.

The following table details the loss allowance of notes and trade receivables based on the Group's allowance matrix:

### (3) Retained earnings and dividends policy

Under the dividends policy as set forth in the Company's Articles of Incorporation, where the Company makes a net income in a fiscal year, the profit shall be used first for offsetting losses of previous years, setting aside as legal reserve 10% of the remaining profit, setting aside or reversing a special reserve in accordance with the laws and regulations, and then any remaining profit together with any undistributed retained earnings shall be used by the Company's board of directors as the basis for proposing a distribution plan, which should be resolved in the shareholders' meeting for the distribution of dividends and bonuses to shareholders. The shareholders' meeting may retain part or all of such earnings depending on the operating circumstances. The industry that the Company operates in is in the maturity stage. Consequently, in order to take R&D needs and diversification into consideration, shareholders' dividends shall not be less than 10% of the distributable earnings in the current year, of which the cash dividends shall not be less than 10% of the total dividends. However, if the distributable earnings of the year are less than \$0.1 per share, it shall not be distributed. For the policies on the distribution of employees' compensation and remuneration of directors after amendment, refer to "Employees' compensation and remuneration of directors" in Note 23(7).

The appropriation of earnings to the legal reserve shall be made until the legal reserve equals the Company's paid-in capital. The legal reserve may be used to offset deficits. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital or distributed in cash.

The appropriations of earnings for 2023 and 2022 as approved in the shareholders' meetings held on May 28, 2024 and May 26, 2023, respectively, are as follows:

4) Valuation techniques and inputs applied for Level 3 fair value measurement

To determine the fair value for Level 3 financial instruments, the Group's financial department conducts independent fair value verification using independent sources so as to better reflect the market conditions, as well as periodically reviewing the valuation results in order to guarantee the rationality of the measurement. For unlisted domestic equity investments, the Group utilizes the asset approach and takes into account the most recent net asset value, observable financial status as well as the financing activities of investees in order to determine their net asset value. The unobservable input used was a discount for the lack of marketability of 15% on June 30, 2024, December 31, 2023, and June 30, 2023. When other inputs remain unchanged, the fair value will decrease by \$711 thousand, \$711 thousand, and \$772 thousand, respectively, if the discount for lack of marketability increases by 1%.

(4) Financial risk management objectives and policies

The Group's conduct of risk control and hedging strategy is influenced by the operational environment. The Group monitors and manages the financial risk by business nature and risk dispersion. These risks include market risk (including foreign currency risk, interest rate risk and other price risks), credit risk and liquidity risk.

1) Market risk

The Group's operating activities exposed itself primarily to the market risks of changes in foreign currency exchange rates and interest rates.

There has been no change to the Group's exposure to market risks or the manner in which these risks were managed and measured.

a) Foreign currency risk

The Group conducted foreign currency sales and purchases, which exposed the Group to foreign currency risk. In order to avoid the impact of foreign currency exchange rate changes, which lead to deductions in foreign currency denominated assets and fluctuations in their future cash flows, the Group maintains a balance of hedged net foreign currency denominated assets and liabilities. The Group also utilizes foreign exchange forward contracts to hedge the currency exposure. The use of foreign exchange forward contracts is regulated by the policies passed by the Group's board of directors. Internal auditors focus on reviewing the observance of the policies and the quota of risk exposures. The foreign exchange forward contracts that the Group engaged in were not for speculation purposes.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are set out in Note 31.

Sensitivity analysis

The Company's sensitivity analysis mainly focuses on the foreign currency risk of U.S. dollars at the end of the reporting period. Assuming a 3% strengthening/weakening of the functional currency of the Group against U.S. dollars, pre-tax profit for the six months ended June 30, 2024 and 2023, would have decreased/increased by \$22,919 thousand and \$20,925 thousand, respectively.

In management's opinion, the sensitivity analysis was unrepresentative of the inherent foreign currency risk because the exposure at the end of the reporting period did not reflect the exposure during the period.

b) Interest rate risk

The Group was exposed to the fair value risk of interest rate fluctuations for the fixed interest rate bearing financial assets and financial liabilities; the Group was exposed to the cash flow risk of interest rate fluctuations for the floating interest rate bearing financial assets and financial liabilities. The Group's management regularly monitors the fluctuations in market rates and then adjusted its balance of floating rate bearing financial liabilities to make the Group's interest rates more closely approach market rates in response to the interest rate risk.

The carrying amount of the Group's financial assets and financial liabilities with exposure to interest rates at the end of the reporting period were as follows:

	June 30, 2024	December 31, 2023	June 30, 2023
Fair value interest rate risk			
- Financial assets	\$ 2,036,806	\$ 1,769,277	\$ 2,100,112
- Financial liabilities	1,410,317	1,330,626	1,445,753
Cash flow interest rate risk			
- Financial assets	293,370	370,053	374,338
- Financial liabilities	3,755,254	3,416,233	3,167,778

Sensitivity analysis

The fixed-rate financial assets and liabilities held by the Group are not included in the analysis as they are all measured at amortized cost. For floating rate assets and liabilities, the analysis was prepared to assume that the amount of the assets and liabilities outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point fluctuation in interest rate was used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

When reporting to the management, the Group considers any interest rate fluctuation within 50 basis points reasonable. If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Group's pre-tax profit for the six months ended June 30, 2024 and 2023, would have decreased/increased by \$8,655 thousand and \$6,984 thousand, respectively.

c) Other price risks

The Group was exposed to the equity price risk through its investments in domestic listed shares, domestic unlisted shares, beneficiary securities and other equity securities investments. The Group manages this exposure by maintaining a portfolio of investments with different risks. In addition, the Group has appointed a special team to monitor the price risk.

Sensitivity analysis

The sensitivity analysis below was determined based on the exposure to securities price risk at the end of the reporting period. As such, the Group's money market funds recognized under financial assets at FVTPL were not included in the analysis because their price fluctuation risk is extremely low.

If the price of marketable securities had increased/decreased by 5%, pre-tax profit for the six months ended June 30, 2024 and 2023, would have increased/decreased by \$8,694 thousand and \$4,964 thousand, respectively, as a result of the changes in fair value of financial assets at FVTPL (excluding investment in money market funds). Other comprehensive income for the six months ended June 30, 2024 and 2023, would have increased/decreased by \$3,135 thousand and \$3,445 thousand, respectively, as a result of the changes in fair value of financial assets at FVTOCI.

2) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations and result in financial loss to the Group. As at the end of the reporting period, the Group's maximum exposure to credit risk, which would cause a financial loss to the Group due to the failure of counterparties to discharge an obligation and financial guarantees provided by the Group, could arise from:

- a) The carrying amount of the respective recognized financial assets as stated in the consolidated balance sheets; and
- b) The maximum amount the Group would have to pay if the financial guarantee is called upon, irrespective of the likelihood of the guarantee being exercised.

The Group adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. The Group's exposure and the credit ratings of its counterparties are continuously monitored.

The counterparties of the Group's trade receivable included numerous clients distributed over a variety of areas and were not centered on a single client or location. Furthermore, the Group continuously assesses the financial condition of

its clients, and then the Group's credit risk was limited. As of the end of the reporting period, the Group's largest exposure to credit risk is approximately that of the carrying amounts of its financial assets.

3) Liquidity risk

The Group managers maintain working capital and mitigate liquidity risk by maintaining a level of cash and cash equivalents and financing facilities deemed adequate.

a) Liquidity and interest rate risk tables

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The table was drawn up based on the undiscounted cash flows of financial liabilities from the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows.

- (2) Description of Kaohsiung gas explosions:

Regarding the equity-accounted investee, China General Terminal & Distribution Corporation (hereinafter "CGTD"), which was commissioned to operate LCY Chemical Corp.'s propylene pipeline resulting in a gas explosion on July 31, 2014, the appeal was dismissed by the Supreme Court on September 15, 2021, and all three employees of CGTD were innocent.

CGTD reached an agreement with Kaohsiung City Government on February 12, 2015 and pledged a term deposit of \$232,304 thousand (including interest) to the Government as a guarantee for losses caused by the gas explosions. The Kaohsiung City Government has also filed civil litigation against LCY Chemical Corp. CGTD, and CPC Corporation. Taiwan Power Company applied for provisional attachment against CGTD's property on August 27 and November 26, 2015. CGTD had deposited cash of \$99,207 thousand to the court to avoid provisional attachment. Taiwan Water Corporation also applied for provisional attachment against CGTD's property on February 3 and March 2, 2017. As of July 29, 2024, CGTD had assets approximating \$6,401 thousand in value seized in relation to the accident.

As for the victims, CGTD, LCY Chemical Corp. and Kaohsiung City Government signed a tripartite agreement on July 17, 2015 agreeing to negotiate the compensation first with the 32 victim's successors and persons entitled to the claims ("family of the victim"). Each victim's family was entitled to \$12,000 thousand and the total compensation was \$384,000 thousand. The compensation was first paid by LCY who also represent the three parties in the settlement negotiation and the signing of settlement agreements with family of the victim. CGTD also agreed to pay \$157,347 thousand to LCY on August 10, 2022 in accordance with 30% of the proportion of fault

liability in the first instance judgment in accordance with a tripartite agreement. After that, when the civil litigation is determined, it will be compensated according to the determined liability ratio.

As for the seriously injured victims, CGTD, LCY Chemical Corp. and the Kaohsiung City Government signed a tripartite agreement for serious injuries on October 25, 2017 agreeing to negotiate the compensation first with the 65 seriously injured victims. The compensation was first paid by CGTD and the Kaohsiung City Government. CGTD also represents the three parties in negotiating settlements with victims who suffered serious injuries in the incident. It has signed settlement agreements with 64 of the victims.

As of July 29, 2024, victims and their families have filed civil (including supplementary civil action) lawsuits against LCY Chemical Corp., CGTD and CPC Corp. for compensation. To reduce the lawsuit costs, CGTD had reached a settlement on the original claim of \$46,677 thousand, and the amount of the settlement was \$4,519 thousand. Along with the case still under litigation and the above-mentioned compensation, the accumulated amount of compensation is \$3,831,212 thousand. The first-instance judgments of some of the above-mentioned civil cases (with a total amount of compensation of approximately \$1,467,830 thousand) have been gradually announced, starting from June 22, 2018. The proportion of fault liability of the Kaohsiung City Government, LCY Chemical Corp. and CGTD is 4:3:3 in most judgments. The total amount of compensation that CGTD, LCY Chemical Corp. and other defendants should pay is around \$401,979 thousand. (In particular, CGTD was exempted to pay \$6,194 thousand according to the court's judgment.) CGTD has appealed to the civil lawsuits that have been awarded judgment in the first instance but yet to be settled, and gradually received judgments of the second instance from July 10, 2024 onwards. By July 29, 2024, the court of second instance had issued a judgment over the claim by Kaohsiung City Government (totaling \$400,930 thousand), which found CGTD and LCY Chemical jointly liable for 10% of the fault and \$19,789 thousand in compensations, and a judgment over the claim by Taiwan Power Company (totaling \$99,544 thousand), which found CGTD and LCY Chemical jointly liable for \$85,601 thousand in compensations. CGTD is currently deciding whether to appeal these judgments to the third instance. All other cases (with a total compensation claim of about \$1,860,557 thousand) are still being reviewed at the court of first instance. CGTD has signed a claim settlement agreement with the insurance company in accordance with the proportion of fault liability (i.e. 4:3:3) determined in the first-instance judgment, and estimated the amount of settlement for victims and the seriously injured and the civil litigation compensation amount (including settled cases) accordingly. The maximum amount of the insurance claim was deducted to calculate the amount payable by CGTD, and \$136,375 thousand has been estimated and accounted for. However, the actual settlement and compensation amount described above can only be verified after the proportion of fault liability is determined in the civil judgments.

- (3) TVCM signed an ethylene or dichloroethane purchase contract with CPC Corporation, Formosa Plastics Corporation and Blue Water Alliance. The purchase price was negotiated by both parties according to a pricing formula.

(2) Others Matters

The President announced amendments to the Climate Change Response Act on February 15, 2023 that introduced rules on the collection of carbon fees. The Ministry of Environment later proposed drafts of "Regulations for Charging Carbon Fees," "Regulations Governing Voluntary Carbon Reduction Plan," and "Subjects of Carbon Fee Collection and Greenhouse Gas Reduction Goals" later on April 29, 2024. According to the draft of Regulations for Charging Carbon Fees, all emission sources that have to be registered with and inspected by the Ministry of Environment and any power company or large manufacturer that generates emissions exceeding 25,000 metric tons of CO<sub>2</sub> equivalent a year on a whole plant basis, whether directly or indirectly through use of electricity, will be charged carbon fees.

Implementation details regarding carbon fee collection, such as the initial levy rates, effective date, key sub-laws etc., had yet to be determined as of the approval date of the consolidated financial statements, and the Group will continue to evaluate the impacts of the above regulations.
