

VERDOR GREEN-Film

Product Code

CTUF

Thickness

1.0mm~2.5mm

Applications

Rooftop or wall side waterproof material.

Characteristics

- 1. TPE elastic material, calander process.**
- 2. Multi-layer laminated with/without tarpaulin, good heat melt fabrication.**
- 3. Color, gloss level, emboss, thickness are adjustable to meet customer's needs.**
- 4. Low temperature resistance -30°C and below.**
- 5. No plasticizer and DMF, not hydrolyzed.**
- 6. Complying with RoHS and REACH regulations.**
- 7. CNS10145/GB27789 ASTM D6878/D6878M-13**

Waterproofing Membrane

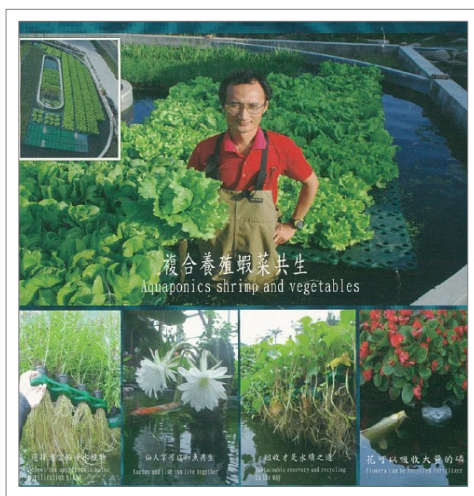

the “Green Film”

a new, revolutionary product from CGPC

Applications	Roofing membranes, Green Roof / Pond materials
Characteristics	Good thermal welding process / water proof / Anti-root puncture resistance / puncture-resistant / weather / light

Rooftop Membrane Liner

Green Roof

Pond material
