

# 華夏防污膠皮

## STAIN RESISTANCE VINYL

# 防污塑料的挑戰正式啟動！

## THE STAIN RESISTANCE CHALLENGE IS ON!

塑料產品未曾到達的境界

*Go where no vinyl has gone before...*

2013年6月，華夏大膽發出防污膠皮的挑戰：

華夏近期開發成功的抗污表面處理劑，在塑料工業上是一項重大的突破，它不僅擁有高度的抗污染性，同時保留塑料產品原有之光澤度與柔軟性，提供塑料產品更持久的美麗外觀和實用性能。傳統頑固的污漬和洩漏，如原子筆、簽字筆油墨、油漆、顏料和口紅都無法穿透華夏防污皮嚴密的防護網。帶您的墨水、口紅和日常您想得到的污染源，讓華夏防污皮為您展現它的效能。

June 2013, CGPC has boldly issued the STAIN RESISTANCE challenge:

Bring us your ink, lipstick, everyday stains and let CGPC STAIN RESISTANCE VINYL go to work. It is the recently developed topcoat by CGPC, delivers a topcoat for enduring beauty and performance for vinyl products. It is a break-through product for the vinyl industry because it dramatically increases stain resistance, while preserving the integrity of the fabric luster and softness. Traditionally difficult stains and spills, such as ink, paint and lipstick are no match for it. It will be the featured topcoat on many CGPC lines.

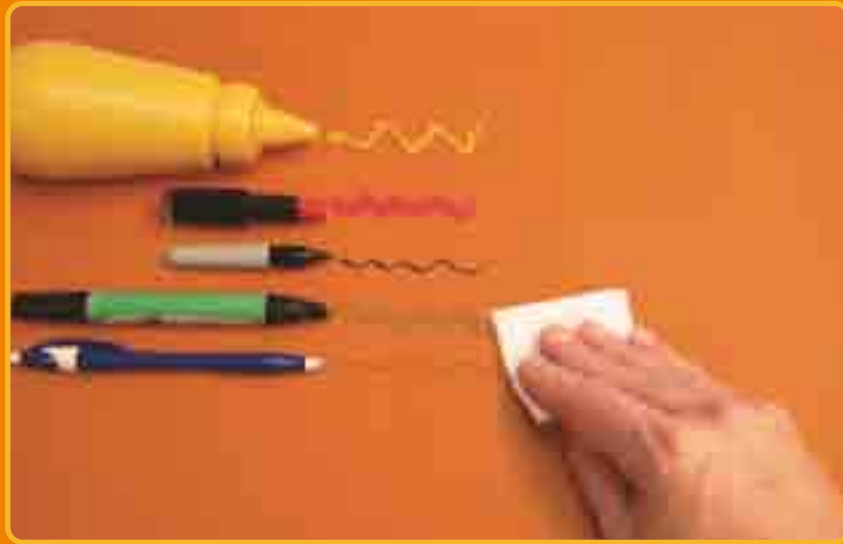

軟硬度100phr以下/符合FMVSS-302耐燃規範

Softness below 100phr

Comply with FLAME RESISTANCE FMVSS-302 regulation

# 清潔與維護

## CARE AND CLEANING

### 方法一/Method 1:

對於一般污漬或洩漏，請使用清水或溫和洗劑(中性肥皂)。

For most common stains and spills, use mild soap and water.

### 方法二/Method 2:

若污染狀況在使用方法一之後仍無法排除，請改用一般市售清潔劑。

If method 1 does'nt work, use common house hold items.

### 方法三/Method 3:

對於更嚴重的污漬，如油漆或口紅，請使用70%濃度之酒精清除。

For tougher stains such as sharpie, paint and lipstick, use a 70% alchol wipe.

污染源 Staining Agent	方法一 Method 1	方法二 Method 2	方法三 Method 3
灰塵 Dirt	◆	◆	
原子筆 Pen Mark	◆	◆	
簽字筆 Sharpie			◆
油漆/顏料 Paint			◆
蕃茄醬/芥末醬 Ketchup/Mustard			◆
口紅 Lipstick			◆
指甲油 Nailpolish			◆
